TROPICAL CYCLONE BULLETIN NR. 14
Severe Tropical Storm KIYAPO (NOUL)
Issued at 11:00 PM, 24 July 2026
Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

KIYAPO CONTINUES TO INTESIFY AS IT MOVES OVER THE WEST PHILIPPINE SEA.

Location of Center (10:00 PM)

The center of Severe Tropical Storm KIYAPO was estimated based on all available data at **140 km West Northwest of Calayan, Cagayan (19.7°N, 120.2°E).**

Intensity

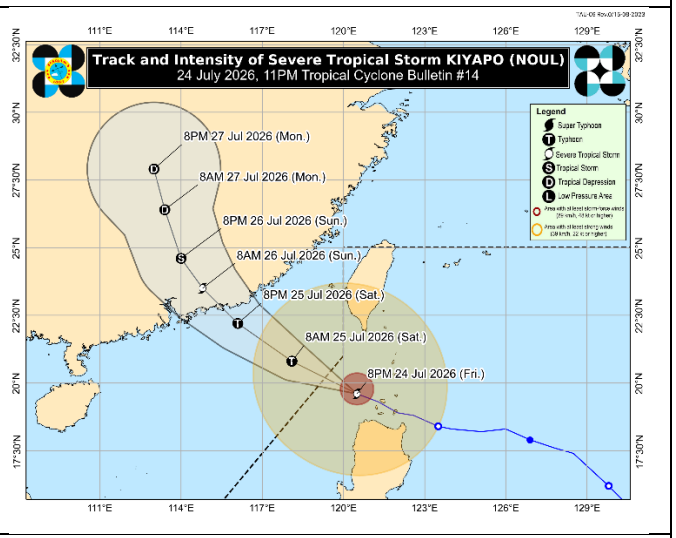
Maximum sustained winds of **110 km/h** near the center, gustiness of up to **135 km/h**, and central pressure of **975 hPa.**

Present Movement

West northwestward at 30 km/h

Extent of Tropical Cyclone Winds

Strong to storm-force winds extend outwards up to **470 km** from the center



TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)
	Lat. (°N)	Lon. (°E)	Location	MSW (km/h)	Cat.	
12-Hour Forecast 8:00 AM 25 July 2026	20.8	118.1	390 km West of Itbayat, Batanes (OUTSIDE PAR)	130	TY	WNW 25
24-Hour Forecast 8:00 PM 25 July 2026	22.2	116.1	615 km West Northwest of Itbayat, Batanes (OUTSIDE PAR)	140	TY	NW 20
36-Hour Forecast 8:00 AM 26 July 2026	23.5	114.8	785 km West Northwest of Itbayat, Batanes or in the vicinity of Guangdong Province, China (OUTSIDE PAR)	110	STS	NW 15
48-Hour Forecast 8:00 PM 26 July 2026	24.6	114.0	910 km West Northwest of Extreme Northern Luzon or in the vicinity of Guangdong Province, China (OUTSIDE PAR)	75	TS	NW 15
60-Hour Forecast 8:00 AM 27 July 2026	26.4	113.4	1,065 km Northwest of Extreme Northern Luzon or in the vicinity of Hunan, China (OUTSIDE PAR)	55	TD	NNW 15
72-Hour Forecast 8:00 PM 27 July 2026	27.9	113.0	1,195 km Northwest of Extreme Northern Luzon or in the vicinity of Hunan, China (OUTSIDE PAR)	45	TD	NNW 15

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT			
TCWS No.	**Luzon**	**Visayas**	**Mindanao**
2 Wind threat: **Gale-force winds**	**Batanes and the western portion of Babuyan Islands** (Calayan Is., Dalupiri Is., Fuga Is.)	-	-
	Warning lead time: **24 hours** Range of wind speeds: **62 to 88 km/h (Beaufort 8 to 9)** Potential impacts of winds: **Minor to moderate threat to life and property**		
1 Wind threat: **Strong winds**	**The rest of Cagayan, the northern portion of Isabela** (Santo Tomas, Santa Maria, Quezon, Delfin Albano, San Pablo, Tumauini, Cabagan, Mallig, Maconacon, Quirino, Roxas)**, Apayao, Abra, Kalinga, Mountain Province, Ilocos Norte, and the northern and central portions of Ilocos Sur** (Cabugao, Sinait, San Juan, Magsingal, Santo Domingo, Bantay, San Ildefonso, San Vicente, Gregorio del Pilar, San Esteban, Banayoyo, Cervantes, Burgos, City of Candon, Santa Lucia, Santiago, Santa Catalina, Lidlidda, Nagbukel, Suyo, Sigay, Galimuyod, Quirino, City of Vigan, San Emilio, Caoayan, Santa, Tagudin, Santa Cruz, Santa Maria, Narvacan, Salcedo, Alilem)	-	-
	Warning lead time: **36 hours** Range of wind speeds: **39 to 61 km/h (Beaufort 6 to 7)** Potential impacts of winds: **Minimal to minor threat to life and property**		

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Refer to **Weather Advisory No. 15 issued at 11:00 PM today** for the heavy rainfall outlook due to TC KIYAPO and the Southwest Monsoon.

Severe Winds

The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Minor to moderate impacts** from gale-force winds are possible within any of the areas under Wind Signal No. 2.
- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

The Southwest Monsoon and the periphery of KIYAPO will bring **strong to gale-force gusts** over the following areas (especially in coastal and upland areas exposed to winds):

- **Today:** Most of the country.
- **Tomorrow (25 July):** Most of Luzon, Western Visayas, Negros Island Region, Cebu, Northern Samar, Zamboanga del Norte, Sultan Kudarat, and Davao Oriental.
- **Sunday (26 July):** Batanes, Cagayan, Ilocos Region, Zambales, Bataan, Quezon, and MIMAROPA.

TROPICAL CYCLONE BULLETIN NR. 14
Severe Tropical Storm KIYAPO (NOUL)
Issued at 11:00 PM, 24 July 2026
Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

HAZARDS AFFECTING COASTAL WATERS

A Gale Warning is in effect over the northern seaboard of Northern Luzon. For more details, refer to Gale Warning No. 3 issued at 5:00 PM today.

24-Hour Sea Condition Outlook

Up to very rough seas over the following coastal waters:

- **Up to 5.5 m:** The seaboards of Batanes and Babuyan Islands.
- **Up to 4.5 m**: The northern seaboards of mainland Cagayan and Ilocos Norte.
- **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

Up to rough seas over the following coastal waters:

- **Up to 3.5 m:** The remaining seaboards of mainland Cagayan and Ilocos Norte.
- **Up to 3.0 m:** The northeastern seaboard of Isabela; the northern seaboard of Ilocos Sur.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

Up to moderate to rough seas over the following coastal waters:

- **Up to 2.5 m:** The seaboards of Zambales and Surigao del Sur; the northern seaboard of Aurora; the eastern seaboard of Davao Oriental; the western seaboard of Pangasinan; the remaining seaboard of Isabela.
- **Up to 2.0 m:** The seaboards of Cuyo Islands, Kalayaan Islands, Cagayancillo Islands, and Davao Occidental; the northern seaboards of La Union, Camarines Norte, and Camarines Sur; the northern and eastern seaboards of Polillo Islands and Catanduanes; the eastern seaboards of Albay, Sorsogon, Northern Samar, Eastern Samar, Dinagat Islands, and Siargao-Bucas Grande Islands; the western seaboards of Bataan, Occidental Mindoro including Lubang Islands, mainland Palawan including Calamian Islands, and Negros Occidental; the southern seaboards of Antique, Iloilo, Guimaras, Negros Oriental, Davao Oriental, and Sarangani; the remaining seaboards of Ilocos Sur and Aurora.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions**.

Other coastal waters have forecast wave heights of less than 2.0 m.

TRACK AND INTENSITY OUTLOOK

- **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the landfall point and the forecast confidence cone. Refer to "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.**
- KIYAPO will continue moving west northwestward over the West Philippine Sea until tomorrow (25 July) morning before turning northwestward to northward towards the southern mainland China. On the forecast track, KIYAPO will exit the Philippine Area of Responsibility (PAR) by tomorrow early morning.
- Due to favorable environment conditions, KIYAPO may undergo a rapid intensification and may reach typhoon category by tomorrow morning. It will further intensify before making landfall over southern mainland China. Afterwards, KIYAPO is expected to weaken as it moves further inland.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 AM tomorrow.
